

Andrew Hillman is the Northeast regional business developer for DRG. As a senior consulting urban forester, Mr. Hillman assists landscape architects, municipalities, engineers, developers, universities, and nonprofit organizations to develop and implement community forestry projects, including tree inventories, urban tree canopy assessments, i-Tree analyses, and tree preservation plans. Mr. Hillman also develops management and planting plans that allow communities to maximize ecological and social tree benefits, increase the sustainability of urban areas, and augment green infrastructure. Mr. Hillman has over 30 years of experience in urban forestry. Prior to joining Davey Resource Group, Mr. Hillman was city forester for the City of Ithaca, New York. He previously managed the urban forestry program for Oswego, New York. Mr. Hillman has served for many years on the ANSI A300 Committee, which develops the national tree care performance standards. He is an International Society of Arboriculture Certified Arborist/Municipal Specialist #NY-5282 AM, holds the Society's Tree Risk Assessment Qualification, and is a New Jersey Licensed Tree Expert #607. He is a past president of the Society of Municipal Arborists, Honorary Life Member, and an instructor at the SMA Municipal Forestry Institute. Mr. Hillman is a past president of the New York State Urban Forestry Council, member of the Finger Lakes Land Trust, and volunteers as a biodiversity nature preserve steward. He is a member of the Town of Ulysses, NY Sustainability and Conservation Advisory Committee and the Town's Climate Smart Community Task Force. Mr. Hillman has a BA in Biology from SUNY Oswego.
